A BAD DAY FOR FAVORITES.

ONLY ONE ODDS-LOVER AT WASHINGTON PARK YESTERDAY.

The Unfavorable Finish Proves That Quite a Little Money Carelessly Invested in Favorites Won the Byrd Prize Easily After an Exciting Contest—The Racing at Monmouth Park and at Other Eastern Tracks—Today's Ball Games—General Sporting News.

Several 1,000 and 2,000 people in large assemblages like the progressive crowd at yesterday's Washington Park meeting do not contribute to the success of the racing. The favorite had another streak of bad luck, but happened to capture three out of the seven events. There being two field selling in the last two races they were pulled off. Even these unfavorable results were not to starting the last two races, the odds on favorites of three lowest priced horses. The result was to produce positives. The judges were Messrs. Williams, Wilkinson, Ely, Bowers and Col. A. J. Snyder, the starter, John Smith and George Arnold.

The event began with a mile dash between a field of seven 3-year-olds, of which Byrd was the favorite at about even with Mist of the Hummingbird, at 3 to 1, and the field nowhere. Mist, with Hill in the saddle, jumped away from the post in front, and the favorite had to be taken back to the last place. Byrd got away a good length behind the leaders, and after going a mile and a quarter, the favorite was in front, with Mist second, Hummingbird third, Lizzie Dwyer fourth, Bob Miller fifth, Bonnie Bell sixth and Lucky Baldwin last. Royal Baking Powder is Superior to All Others in Strength and Purity.

Certified Extracts from the report of Hon. E. Miall, Commissioner, and Professor William Saunders, F. R. S. C., Public Analyst, Inland Revenue Department, Ottawa, Canada, pages 4, 10, 11:

"Eight samples of baking powder have been analyzed; six were found to be adulterated, the proportion of adulterant varying from 30 to 60 per cent. The other two consisted of a mixture of bicarbonate of soda and pure cream of tartar without any adulterant."

"Royal. *Result of analysis:* contains cream of tartar, carbonate of soda; pure."

"Price's. *Result of analysis:* contains matter insoluble in water 24.16 per cent, consisting of starch and tartrate of lime; adulterated."

"The Royal Baking Powder is absolutely pure. It is unquestionably the purest and most reliable baking powder offered to the public." "Dr. Henry A. Mott, Ph.D., U. S. Government Chemist."
